WORK EXPERIENCE

Software Developer Intern
Tata Power DDL

08/2022 - 10/2022   *New Delhi, India*

Achievements/Tasks

- Built a comprehensive website for TPDDL, including essential elements like the main page, login portal, registration page, and complex admin dashboard. This enhanced functionality, user involvement, and operational effectiveness.
- Created a digital composition that brought ideas to life by combining ASP.NET, JavaScript, HTML, and CSS.

PERSONAL PROJECTS

FILE SYSTEM ORGANISER (07/2023 - 08/2023)
- Engineered a Node.js command line tool utilizing JavaScript, streamlining file organization by intelligently categorizing and sorting cluttered files into a neatly organized folder structure, saving users an average of 3 hours per week.
- GitHub Link.

DISNEY CLONE (05/2024 - 06/2024)
- A Disney Clone website built with React.js, Firebase, Styled Components, and Redux. It allows you to browse Disney content, view details, and manage your favorite shows and movies.
- Live Demo.

Alan AI News App (12/2023 - 01/2024)
- Engineered a high-performance project by seamlessly integrating Alan AI's intelligent voice capabilities with React.js and CSS optimization.
- Live Demo.

EDGE LEDGER WEBSITE (10/2023 - 11/2023)
- Created the Edge Ledger Website, a responsive landing page with interactive components and a polished style using HTML, CSS, and JavaScript.
- Live Demo.
